BarDIMM Pro

for hp LaserJet printers and MFPs

Easily print barcodes from SAP R/3, ERPs, Unix, Windows...

If you need print barcodes on documents output by Windows, SAP R/3, Oracle or even your own custom application, install BarDIMM Pro inside your hp LaserJet printer or MFP. Your printer will instantly become a barcoding expert, producing intelligently perfect high quality 1D and 2D barcodes at high speed.

Intelligent barcoding

Unlike some barcode solutions, which merely add fonts to a PC or printer, BarDIMM Pro actually extends the PCL5 language. Barcode formatting, error detection and checksum calculation are performed by the BarDIMM Pro, reducing the load on the host. Barcodes can be printed in almost any size or rotation, bar width and height. Caption text can be embedded in the bars or printed above or below the bars in a variety of fonts and sizes.

More than 80 barcodes, 1D and 2D

BarDIMM Pro adds all the barcoding intelligence to your PCL5e printer with more than 80 barcode types, from the simplest 1D barcodes to the most complex and recent 2D barcodes.

Works natively with SAP R/3, ERPs

BarDIMM Pro is plug&play with many ERP applications including SAP R/3 (OSS notes available). It is also usable from Oracle, Peoplesoft or JDEdwards.

Barcoding from Windows

BarDIMM Pro is Plug&Play with most Windows applications, using activation through special TrueType fonts.

Barcoding from other systems

Barcoding from any other system such as Unix or mainframes is also available by inserting barcoding commands in PCL5 flows or ASCII/SCS spool files.

Supported 1D barcodes

RSS14, UPC-A/E, EAN-8/13, Code 39, Ext Code 39, Code 93, Ext code 93, 25 Interleaved, 25Industrial, 25 Matrix Code 128, EAN/UCC 128, Codabar Monarch, MSI Plessey, OCR-A & B

Supported 2D barcodes

PDF 417, Macro PDF 417, AZTEC, UPS Maxicode, DataMatrix, QRCode Codablock-F, RSS CC-A and CC-B.

Supported postal barcodes

ZIP+4 Postnet, USPS Tray and Sack, USPS Zebra, UK Royal Mail RS4CC Danish, French and German Postal Barcodes, Singapore and Australia Post 4state barcodes

Supported OMR marks

Vertical and horizontal marks for most automatic folding/insertion machines.

Simple to install

The BarDIMM Pro module plugs directly inside the printer and requires no PC, server or configuration.

System requirements

Most hp LaserJet printers are supported, listed at www.jetmobile.com

Regulation

WEEE and RoHS compliant
